25X1C 1. As requested by REG, the Guided Missile Intelligence Committee (GMIC) has reviewed the "Operational Survey for the [REDACTED] and instigated an intelligence community reappraisal of the priority previously assigned each returnee by the Scientific Estimates Committee (SEC) and GMIC.

2. It has been agreed that on the basis of present knowledge of the [REDACTED] the entire group should be given a relatively high priority as contrasted with most of the previous groups of returnees. Consequently the individuals within this group are considered to merit no lower than a "C" priority until a realignment of priorities is made possible by the return of the first knowledgeable members of the group.

Within the A-C priority categories, the GMIC has accepted the REG suggestion that, as a general rule, [REDACTED] should not be given a higher priority than "C". Every [REDACTED] has been assigned a category "C" priority unless available information
